

A Scripture Memory Review System

To begin your Scripture Memory Review System, choose a book, chapter or passage you would like to memorize. It is better to memorize large sections of Scripture so that you can understand its context. However, this review system works for short verses too.

Day 1: Memorize the first verse.

1. Read the first verse five times (or seven or ten, depending on your need). As you do this, be sure you:
 - a. Include the verse numbers (say “two-three” for 2:3). This will become helpful for recall and ministry.
 - b. Consider the meaning of the verse. Read it out loud in a way that expresses the meaning.
 - c. Visually photograph the words or create images of its meaning in your mind. You may also find it helpful to write out the verse by hand.
2. Repeat the first verse five times (or seven or ten) without looking.

Day 2: Review and Memorize

1. Review the verse you memorized yesterday. Repeat it five times without looking. Don't forget to:
 - a. Include the verse numbers (say “two-three” for 2:3).
 - b. Consider the meaning of the verse and say it out loud in a way that expresses the meaning.
2. Memorize the next verse as described in “Day 1.”

Day 3: Review and Memorize

1. Review the verse you memorized yesterday. Repeat it five times without looking. Don't forget to:
 - a. Include the verse numbers (say “two-three” for 2:3).
 - b. Consider the meaning of the verse and say it out loud in a way that expresses the meaning.
2. Repeat one time all the verses you have memorized together.
3. Memorize the next verse as described in “Day 1.”

Day 4 (and after): Review and Memorize

1. Repeat what is described in “Day 3” until you complete the passage or chapter.
2. Once completed, put the passage on your “Daily Scripture Memory Review” chart and review it for 14 days.
3. Then place the passage on your “Weekly Scripture Memory Review” chart and review it once a week for 7 weeks.
4. Then place the passage on your “Monthly Scripture Memory Review” chart and review it once a month for the rest of your life!

Daily Procedure

1. Review a passage from your monthly chart.
 - a. You can do this during other daily activities: shower, driving, waiting, cleaning or exercising. Make it a part of your daily routine.
 - b. You won't have to do this everyday unless you have around thirty passages on this chart.
2. Review a passage from your weekly chart.
 - a. You won't have to do this everyday unless you have around seven passages on this chart.
3. Review all passages on your daily chart.
 - a. This will normally only be one or two passages depending on how many you are trying to memorize at once.
4. Continue to review and memorize the passage you are currently working on as described in "Day 3."
